
ESET NOD32 Antivirus 7 V7.0.302.26 (32bit 64bit) Activator

Azar 18 , 1392 AP - December 9, 2013 in ESET NOD32 Antivirus - ESET Service (32-bit) 31.2% 81.6 MB 0 MB/s -0.1 Mb/s still .NET Framework 3.5.5. And in this case, .NET Framework 3.5.5 is missing. I don't understand why Microsoft decided that Windows Vista no longer ships with .NET Framework 3.5 SP1. Also, I have no reason to use Windows Vista, and I can't remember when I would have installed Windows Vista, so it doesn't matter. Has anyone else been able to discover this, and if so, how is this possible? If Microsoft didn't add the .NET Framework 3.5, what's the point in Windows Vista 7 SP1 and 8.
