
Bacanal De Adolescentes 26

bacanal de adolescentes 26, the folder name gets deleted when i want to rename it. please tell me how to fix it. thanks A: This is how you can do it (the file "bacanal de adolescentes 26" will be in a folder with the name of "Folders"). (On my case I used a folder with the name "Movies" and the file is named "bacanal de adolescentes 26").

```
import java.io.*; import java.util.ArrayList; import java.util.List; import java.util.Arrays; class
RenameFiles { public static void main(String[] args) { List allfiles = new ArrayList(); File folder = new File("C://Users//aaron//Desktop//Bacanal de
Adolescentes 26"); File[] listOfFiles = folder.listFiles(); for (File f : listOfFiles) { if (f.isDirectory()) { allfiles.add(f.getName()); } else { String
fileName = f.getName().replace(folder.getName(), ""); allfiles.add(fileName); } } // now use the list of files as you want // You have to delete the
folders, because the list contains the name of the folder not the folder itself for (String f : allfiles) { if (!f.isEmpty()) { File file = new
File("C://Users//aaron//Desktop//Bacanal de Adolescentes 26//" + f);
```
