There are times when you might find yourself a bit bored with your desktop or overall animation effects offered by your computer's operating system. You can start by changing the wallpaper, applying a different theme or you can employ applications that enhance or add some visual effects. Drozb Torrent Download is a simplistic and lightweight utility that helps you add a touch of color to your computer's operating system with the help of a small set of visual effects. Mouse clicking should not be such a monotonous action More accurately, it makes your computer's desktop a bit more entertaining with the help of water bubbles, wand-like glitter and hearts. Getting started with Drozb Product Key is a very straightforward process, as you only need to double-click its executable file. Once launched, Drozb makes its presence known by integrating itself with the Windows Taskbar and by launching animated effects each time you click something. Packs a small set of customizable effects As expected from such a light utility, it features a minimalist main window with a non-impressive user interface. From the app's main window, you can choose one of the available effects and access the Settings window for each one. As far as customization options are concerned, you should know that Drozb enables you to select the maximum number of elements per click and also how many of them remain visible on the screen. In addition, you can also choose the color hue for the effect's elements. If you feel lacking inspiration, you can always turn to Drozb's feature that renders a random color for each and every effect component. Makes your computer's desktop more entertaining Taking all of the above into consideration, Drozb is a streamlined, little utility that will not make your OS stunning to look at, but it may make each mouse click a bit more fun.
