Results 11-18 of 18 - iGO Primo 9.2.0.213495 - M3GPS i3, November 17, 2011 Click "LIKE this post" and press F5 to read it. I am using iGO Primo 9 and I just realized that I have a bug... I am getting an error message in the navigation system: "[Error] Application failed to start." This always happens when I use it to open cards. I noticed that this happens when I try to change my icon. I can't figure out how to fix this. I tried reinstalling the navigator but it still works fine when I choose which icon to install. This is for Windows 7.
