## What's New in the Note Box?

Simple and powerful note taking. widget engine. Provide a way to note your browser pages, news and other cool stuff like that, and apply them for quick reference. Note Box Moving in a step by step manner, the second part of Note Box involves the saving of the data created with the widgets on the desktop. Once there, the box can be easily ported to a public site. It also provides a link for easier and faster sharing of data. The format for this particular note is XHTML, which is the industry standard for web pages. It ensures a compatibility with most browsers, meaning users don't need to add any plugins for viewing Note Box. The interface for Note Box is pretty friendly. Sorting is possible with a drop down box, while filtering is also supported with a series of buttons. There's a history with the box, allowing users to see what was added previously, and a way to export the content. This is accomplished by clicking on the web, and the option to save a local file. Note Box Pro Features: • Create your own page and categorize the info to be stored. • Show data with a scrolling tab on the web. • Drag and drop to re-arrange with a friendly GUI. • Easy to change widget content and location. • Add as many widgets as you want, with an unlimited amount of content. • Share the content with a public site. • Export as an XHTML file. • Sort, search and delete widgets with a history. • Write with any word processor. • Support for Windows XP, Windows Vista and Linux. Slick note taking software NoteBox. It features a simple interface, advanced text editing tools, an extremely fast search engine, a powerful cross platform gadget system, stunning web widgets and the ability to export your notes to popular formats like PDF, HTML, XHTML and DOC. If you are looking for a note-taking system that will let you organize all of your notes in a user friendly way, then you need to use NoteBox. It has a simple interface, easy to understand, and is packed with a lot of features. First of all, the interface is very appealing, with the ability to fully customize it to your needs. You can add your own toolbar, change the buttons appearance and size, etc. In the settings you can choose to see notes as a list, or the option to display the notes in a windows explorer style
